The Hotel

a contemporary vintage style boutique hotel offering 11 authentically designed rooms in the heart of the UNESCO heritage city of Stone Town and a stone throw away from the main waterfront. An intimate oasis in the midst of the hustle & bustle of our intriguing city.

Upendo House, opened in February 2020, is a historical and traditional building set on five floors (without an elevator), which has been fully renovated to the Upendo standard.

Upendo House offers 8 superior & 3 deluxe rooms. All with stylish vintage touches mixed with fine linens & unique wallpapers that give each room its own personality!

Conserve

We avoid using plastic as much as we can. All toiletries are refillable and we use organic products produced by local communities.

Stations of drinking water are available in the common areas and all rooms.

We recycle glass bottles and donate to great initiatives that are transforming them into stylish, everyday- use items such as the glasses we use in our restaurant!

We work with local suppliers, and we use local materials respecting both the environment and the traditions of the Swahili culture.

We compost and sort our waste.

We are proud partner of Farmers Market - South East Coast - Zanzibar
